LA PRUDENCE LEASING FINANCE CO. LTD.
FOR THE YEAR ENDED 31 DECEMBER 2018

CORPORATE GOVERNANCE REPORT

La Prudence Leasing Finance Co. Ltd (hereinafter as ''the Company'' or ''La Prudence Leasing'') is a Public Interest Entity as defined by the Financial Reporting Act 2004 and is required to abide by the National Code of Corporate Governance 2016 ('the Code') but also to the Bank of Mauritius' Guideline on Corporate Governance (Revised October 2017) and to report accordingly.

The Board of Directors ('Board') of La Prudence Leasing is committed to uphold the highest standards of integrity, accountability and transparency in the governance of the Company and acknowledges its responsibility for applying and implementing the eight principles set out in the Code and for meeting all legal and regulatory requirements.

1. GOVERNANCE STRUCTURE

The Board of Directors is fully aware of its role and responsibility for providing and maintaining good corporate governance.
In respect of the implementation of the Code, the Board approved the following documents which can be viewed on its website: http://www.prudenceleasing.com/

- Board Charter
- Position Statements of its senior governance positions. A description of the position statements of key governance positions is available in the Board Charter
- Code of Ethics
- Organisational Chart and Statement of Accountabilities.
- Constitution of the Company. There are no material clauses to be highlighted in the Constitution of the Company as it duly complies with the provisions of the Companies Act 2001. The Constitution however provides for restrictions on transfer of shares.

Board has decided to regularly review the Board and Committees' charter upon recommendation of the Corporate Governance, Nomination and Remuneration Committee.

2. STRUCTURE OF BOARD AND COMMITTEES

<u>The Board</u>

The unitary Board consisted of nine members as at 31 December 2018. The Company's constitution stipulate that the Board shall consist of not less than 5 or more than 15 Directors.

The directors come from different professional backgrounds with varied skills, expertise and strong business experience. The Board is satisfied that its actual size and composition is well balanced for it to assume fully its responsibilities while discharging its duties effectively with one executive, four non-executive, four independent directors including two female directors thereby complying with gender balance. The Board is also satisfied that the number of independent directors not having any relationship with the Company or with the majority shareholders is adequate.

All the Directors are residents in Mauritius and none of them have exceeded their 6th year's tenure of office during the current year under preview.
The sole shareholder is fairly represented on the Board through the four NED.
The Directors' profiles, skills and biographies can be viewed on pages 5 to 7 of the report or http://www.prudenceleasing.com/

The Company Secretary

The Company Secretariat function has been entrusted to ECS Secretaries Ltd through a service agreement. This company is an independent provider of company secretarial services since more than two decades, and employs fully qualified secretaries from the Chartered Institute of Chartered Secretaries to fulfil its duties as Company Secretary in accordance with qualifications required by the Companies Act 2001.

Board and Committees Processes

Board meetings are held at least five times a year and each committee meet at least four times a year. Additional meetings may be convened to deliberate urgent matters. Certain decisions are taken by way of written resolutions. Calendar of board and Board committee meetings are set well in advance.

Attendance at Board and Committee Meetings:

Members	Board (out of 5 meetings)	Corporate Governance, Nomination and Remuneration Committee (out of 5 meetings)	Audit Committee (out of 5 meetings)	Risk and Conduct Review Committee (out of 4 meetings)	Assets and liabilities committee (out if 4 meetings)

Board Committees

The board has approved the composition and the terms of reference of the following committees in order to assist it in the execution of its policies and its decision-making process: Audit Committee, Risk and Conduct Review Committee, Corporate Governance, Nomination and Remuneration Committee, and Assets and Liabilities Committee.

The Chairpersons of the four committees are invited to report verbally to the directors during board meetings, such reports being duly minuted.

Each Committee is governed by a charter as approved by the Board and which are published on the Company's website: http://www.prudenceleasing.com/

Composition of the four committees are found in the table on pages 4-5.

Mrs Karishma Chumun-Ramphul acts as secretary of the four abovementioned committees.

Audit Committee

The Audit Committee's activities involve a strategic reappraisal of the audit assurance plan, review of all financial information, continued challenge of the Company's risk process and tolerance, an internal audit effectiveness review, continued understanding of key business areas and their associated risks, and improving ongoing Committee learning.

The main area of focus of the Audit Committee during the year under review was:

- Approval of Internal and External Audit Plan
- Perusal of audit reports from the Internal and External Auditors and monitor the remedial actions
- Examination and review the audited Financial Statements
- Examination and review quarterly Financials
- Reviewing the implementation of IFRS9
- Discussing the adequacy of allowance for Credit Impairment

Risk And Conduct Review Committee

Pursuant to Section 54 of the Banking Act 2004, the Board of Directors are required to maintain adequate internal control systems that commensurate with the nature and volume of its activities and various types of risks to which it is exposed. In view of delivering its roles and responsibilities, the Board of Directors has set up a Risk and Conduct Review Committee (the Committee) to work on the technical aspect and report thereon. The Risk and Conduct Review Committee assists the Board in setting up risk strategies and to assess and monitor the risk management process. The Committee also advises the Board on risk issues.

The Committee is also responsible for monitoring and reviewing related party transactions, their terms and conditions and ensuring adherence to the established procedures and compliance with the Bank of Mauritius Guidelines.

The main area of focus of the Risk and Conduct Review Committee during the year under review was:

- Approval of Related Party Transactions
- Review the company's risk appetite
- Formulate, review and approve policies on monitoring and managing risk exposures.

Corporate Governance, Nomination And Remuneration Committee

The Corporate Governance, Nomination and Remuneration Committee is a useful mechanism for making recommendations to the board on all corporate governance provisions to be adopted so that the board remains effective and complies with prevailing corporate governance principles.

The Corporate Governance, Nomination and Remuneration Committee is responsible for the establishment and implementation of systems and procedures to ensure independence of the board from management.

The main area of focus of the Corporate Governance, Nomination and Remuneration Committee during the year under review was:

- Review the changes to the Constitution of the company
- Review and approve salary increase and performance bonus for employees
- Consider employee matters
- Directors Training, Directors Induction and Self-Assessment of the Board
- Discuss the progress achieved through the implementation of the Code of Corporate Governance 2016.

Assets And Liabilities Committee

The Assets and Liabilities Committee assists the board in discharging its supervision responsibilities by overseeing all matters as specified in this Terms of Reference. The Assets and Liabilities Committee supports the board in evaluating the adequacy and monitoring the implementation of La Prudence Leasing policies and procedures with regard to the risk appetite, risk monitoring, capital and liquidity management of the Company.

The main area of focus of the Assets and Liabilities Committee during the year under review was:

- Review of the deposit situation of the company: amounts, maturity, rate and concentration
- Review of the liquidity position on a quarterly basis
- Review of the deposit pricing strategy
- Review of the lease pricing strategy
- Review the capital situation of the company

3. DIRECTOR APPOINTMENT PROCEDURES

Appointment and re-election of directors

The Companies Act 2001, the Board Charter, the Constitution of the Company and the guidelines of the Bank of Mauritius set out the relevant procedures which the Board has to abide by in the selection and appointment process. The Board assumes the responsibility for the appointment of directors of the Company.

Director's Induction, Professional development and Succession Planning

The Board assumes the responsibilities for succession planning, for identifying specific training needs of the directors and for the induction of new directors as provided in the Board Charter. The Board of Directors believe that suitable plans are in place for the orderly succession of appointments to the Board and to senior management positions to maintain the appropriate balance of knowledge, skills and development within the company and the Board.

Each Board member receives an induction and orientation upon joining the Board. The exercise is carried out by the Chairman of the Board and the Managing Director. This process does contribute to ensuring a well-informed and competent Board.

The Company provides the necessary resources for developing and updating its directors' knowledge and capabilities. Professional and technical documents were made available to the Directors for their ongoing professional development. During Board Meetings, time is allowed for open discussions on current topics allowing improvement of Director's knowledge.

4. DIRECTORS DUTIES, REMUNERATION AND PERFORMANCE

Directors are aware of their legal duties.

The Board ascertains that all conflicts-of-interest transactions and related party transactions have been conducted in accordance with the Conflicts-of-Interest Manual and Related Parties Transaction Policy and Code of Ethics as disclosed on the Company's website. Related Parties Transactions are contained within the regulatory limits of the Bank of Mauritius.

Moreover, at the beginning of each meeting of the Board, the Chairman invites the directors to declare any potential source of conflicts of interests to be thereafter recorded in the Register of Interests kept by the Company. This Register is available to the shareholder upon request.

Directors' Interest in the shares of the Company as at 31 December 2018:

The Directors do not hold any direct interests in the ordinary share capital of the Company.

Indirect interests held by directors in the ordinary share capital of the Company are as follows:

Directors	Indirect Interest
Mr Philippe Olivier Maurel	4.63%
Mr Jean Bruno Huet d'Arlon de Froberville	6.08%

Remuneration

Directors

La Prudence Leasing is the wholly-owned subsidiary of Prudence Holding Co Ltd, the remuneration of Directors is decided by the Holding Company after consultation with the Corporate Governance, Nomination and Remuneration Committee of the Company.

The Directors received Rs 6,967,577.00 as Directors fees and Managing Directors' salary/bonus during the year. Given its size and the scope of business, the Board is of the opinion that it is not in the best interest of the company to disclose the detailed remuneration of its directors to the full extent recommended. This is due to the sensitivity and confidentiality surrounding the issue of remuneration and consequently its ability to retain its key talents in a competitive environment. The non-executive directors have not received any remuneration in the form of share options or bonuses associated organisational performance.

Employees

Employees are remunerated as per prevailing market conditions, qualifications, experience, performance and the salary structure within the company.

Performance Evaluation

The Board has, during the current year under review, carried out the evaluation of the effectiveness of the Board, its committees and its individual directors by way of questionnaire. An external facilitator was appointed to complete the evaluation exercise including individual interviews and discussions with each Board Member. A few recommendations were identified and will be discussed by the Board in the forthcoming Board meetings.

Information, Information Technology and Information Security Governance Policy

The Board is responsible to oversee Information, Information Technology and Information Security Governance Policy within the Company and to ensure that there is a strategic alignment with its business strategy for value creation. The Board has approved the Information Technology Policy of the Company. The Board ensures that the Information Technology Policy is regularly reviewed and monitored and sufficient resources are allocated in the annual budget for the implementation of proper Information Technology and Security framework.

PWC has been appointed as consultant to analyse all IT related requirements and eventually advise the Company on the best solution driven software. The latest recommendations of PWC have been presented to the Board for consideration and the Board shall take a decision in relation thereto.

5. RISK GOVERNANCE AND INTERNAL CONTROL

The Board of directors is responsible for the system of internal control and the governance of risk and is fully committed to continuously maintain adequate control procedures. The Board is ultimately responsible for the setting up and monitoring of the risk management process and reviewing its effectiveness on a regular basis The Board is assisted by the Risk and Conduct Review Committee. Critical Risks are identified and discussed at Board and Board Committee levels.

A consultant has been appointed for the implementation of Enterprise Risk Management Framework and the scope of work would includedeveloping the risk appetite using a top-down approach and providing assistance in the development of risk appetites. The consultant would also recommend alignment of the controls and limits to the enterprise level risk appetite and regulatory requirements and provide recommendations for enhancing systems used for the Enterprise Risk Management.

Management is accountable to the Board for the proper design, implementation and enforcement of an effective system of internal controls and ensuring that processes and systems are operating satisfactorily. The audit committee oversees these controls and reviews the effectiveness of the system by ensuring that proper control policies, procedures and activities have been established and are operating as intended. The board, with the assistance of the audit committee which regularly receives and reviews reports from management and the internal auditor. The reports provide a balanced and independent assessment of the effectiveness of internal controls and also identifies any significant weaknesses in the system to allow remedial action.

The Board derives assurance that the system of internal controls is effective through the 3 lines of defence: (i) Management ensures that internal control measures are designed to identify and assess significant risks, highlight inadequate processes and address control breakdowns (ii) the Company's compliance and risk functions that provide independent oversight of the risk management activities, policies and procedures and internal control measures of the first line of defence. (iii) Internal Audit function provide the Board and senior management with comprehensive assurance based on the highest level of independence and objectivity within the company by providing assurance on the effectiveness of governance, risk management, and internal controls, including the manner in which the first and second lines of defence achieve risk management and control objectives.

The Board maintains full control and direction over strategic, financial, operational, control and compliance issues and ensures that an effective organisational structure is in place in line with good governance practices.

The Risk Management report is found on pages 60 to 75 of the Annual report.

A Whistle Blowing Policy as published on the website provides clear guidance how to report within the Company in case of unlawful or unethical behaviours.

6. REPORTING WITH INTEGRITY

The directors reaffirm their responsibility for preparing the annual report including the annual financial statements in compliance with International Financial Reporting Standards, and The Companies Act 2001, and considers the annual report, taken as a whole, fair balanced and understandable. The Board confirms its commitment in providing therein necessary information for shareholder and stakeholders to assess the Company's position, performance and outlook.

The annual report 2018 is published on the Company's website.

Organizational Overview

La Prudence Leasing Finance Co. Ltd is a private company- qualifying as a Public Interest Entity - regulated by the Bank of Mauritius to conduct deposit-taking business and the Financial Services Commission for its leasing business. The Company accepts deposits from the public to finance its lease book. Its core business and expertise over the years have been to facilitate the acquisition of vehicles and equipment for individuals and businesses by providing them with the necessary funding. Its core duty is to focus on its client by providing them targeted solutions with integrity and professionalism. With a new Managing Director appointed since June 2017, the Company has been executing the first phase of its 3-years strategic plan and has been able to build a strong pillar with its internal and external stakeholders and partners within the leasing industry. The Company's mission is to grow its shareholders' value sustainably so as to be among the top 3 in our market segment while serving passionately our clients through comprehensive, customised financial solutions nurtured by our dedicated employees whom we consider as pivotal to our success. Since June 2017, the Company has revised its Organizational Structure, from a headcount of 21 to a headcount of 28, in order to address Governance and control issues and to face with confidence the different challenges and opportunities ahead.

The Company has been able to enlarge and diversify its customer base, reaching a total lease portfolio of Rs 1,331m and a deposit base of Rs 1,407m. Although Prudence Leasing is evolving in a highly competitive environment, it aims at increasing its market share through careful monitoring of its operations.

6. REPORTING WITH INTEGRITY (CONTINUED)

Overview of the External Environment

The Leasing sector in Mauritius is becoming more and more competitive with the number of net investments in Finance Leases and deposits almost flat over the past years. There is now a more aggressive competitive landscape in which all players are trying to gain higher market share.

Business Model

The Company aims at achieving sustainable growth and is committed to be active, agile, adaptable and accessible and serving passionately all clients in its chosen market segment.

Dividend Policy

There is no formalised dividend policy but the board of Directors decide on the quantum of dividends to be declared and paid based on the availability of funds and the Company meeting the solvency test requirements and the Bank of Mauritius requirements. The payment of dividend is subject to the performance of the company, its cash flow and investment requirements.

Health, Safety and Environmental Issues

The Company has developed and implemented social, safety, health and environmental policies and practices that in all material respects comply with existing legislative and regulatory framework. During the year under review, a health and safety training session was held for all employees on 21st August and 23rd October 2018.

Social Issues

The Company provides equal opportunity to its employees and any new recruitment is advertised both internally and externally. There is a performance appraisal for all employees and rewards are provided depending on the financial performance of the company and the employee's individual performance.

Charitable and Political donations

The Company did not make any political donations during the financial year ended 31 December 2018(2017 - Rs Nil).
During the year under review the Company has made charitable donations under the CSR initiative of Rs. 199,978 (2017 – Rs. 83,283)

	CSR paid to:	Amount (Rs)
1	SOS CHILDREN'S VILLAGES MAURITIUS	20,000
2	TIPA	32,494.50
3	ASSOCIATION D'ALPHABETISATION DE FATIMA	32,494.50
4	LION'S CLUB CHARITY EVENT	15,000
5	CSR (50% mandatory payment to MRA under APS returns)	99,989
	Total CSR paid	199,978

7. AUDIT

<u>Internal Audit</u>

The board recognises that risk management within the company is key to successfully carry out its objectives and long-term goals. Management is accountable to the Board to identify and implement processes and procedures in order to manage the significant risks.

Internal controls procedures and policies have been designed and implemented by management so as to get comfort that material misstatement or losses are detected.

7. AUDIT (CONTINUED)

Further to the approval of the Bank of Mauritius, the Board of Directors has appointed KPMG to act as internal auditor. A letter of Engagement has been signed by both parties and the Internal Audit plan is approved by the Audit Committee. The scope of their intervention includes:

- Compliance to Bank of Mauritius Guidelines
- Credit Worthiness and Sanctioning, KYC and Leasing
- Debtors Management and Impairment
- Human Resources
- KYC and Deposit
- Banking and Disbursements
- Close the Books
- Disaster Recovery and Business Continuity
- IT review

Out of which the first six were audited during the year under review. The internal auditor has full access to the records, management or employees of the Company. The internal auditor report on a regular basis to the Audit Committee.

Management is responsible for acting on the findings and implementing the recommendations of the internal audit reports. The Audit Committee reviews the effectiveness of the Internal Audit function on an ongoing basis., which is achieved in part, by reviewing and discussing on the internal audit reports. The Audit Committee is satisfied of the independence of the Internal Audit function and they face no restrictions while conducting their internal audit.

7.1 External Audit

The Audit Committee approves the appointment of the external auditor on a yearly basis and the prior approval of the Bank of Mauritius is also sought. The Audit Committee is presently satisfied with the effectiveness and performance of the audit team. The Audit Plan is discussed and agreed with the Audit Committee.
Messrs Ernst & Young have been appointed as external auditor of the Company in 2017 and have since been reappointed.

The Company complies with the Code of Corporate Governance, the Financial Reporting Act 2004 and the guidelines of the Bank of Mauritius regarding rotation of external auditor which occurs every five years.

The external auditor is invited to attend certain Audit Committee meetings to discuss the accounts presented, management letters, key audit issues, critical policies and to keep apprise of new accounting standards, methods and terminology. Consultation between the latter and the internal audit team are regularly encouraged. The Audit Committee had not met the external auditor without management presence but intend to do so as from 2019.

Audit Services and Non-audit services are provided by two completely different and separate teams of Ernst and Young, thus safeguarding the external auditor's objectivity and independence.
The fees charged by the auditors for audit services and other services were:

	2018 (Rs)	2017 (Rs)	2016 (Rs)
PricewaterhouseCoopers			
Audit services		-	400,000
Other services - non-audit related		-	766,525
Ernst and Young			
Audit services	722,500	650,000	-
Other services - non-audit related	202,700	615,920	-
Total	**925,200**	**1,265,920**	**1,166,525**

The other non-audit services relate to fees paid on account of (i) preparation of the Compliance review report as per the requirements of the Bank of Mauritius Guidelines on Maintenance of Accounting and other Records and Internal Control Systems (ii) tax compliance and (iii) IFRS 9 Expected Credit Loss Impact Assessment Review. Ernst and Young has been appointed as the auditor for the year 2018.

CORPORATE GOVERNANCE REPORT (CONTINUED)

8. RELATIONS WITH SHAREHOLDERS AND OTHER KEY STAKEHOLDERS

La Prudence Leasing is wholly-owned by the Prudence Holding Co Ltd, who is duly represented on the Board.

Annual General Meetings are conducted in accordance with the provisions of the Companies Act 2001, Constitution and Board Charter.

Key stakeholders of the Company are identified as: Employees, Customers, Financial Institutions, Regulators, Suppliers and partners.

The Company is committed towards an open communication with its key stakeholders and to take into account their expectations in its decision-making process. The Board is satisfied that there is adequate communication between the company and its stakeholders.

Shareholding Structure

The Company is a wholly-owned subsidiary of Prudence Holding Ltd.
There is no common directorship between La Prudence Leasing Finance Co Ltd and Prudence Holding Ltd as at 31 December 2018.

Shareholders' Agreement

The Company is not aware of any shareholders' agreement.

OTHER STATUTORY DISCLOSURES

(Pursuant to Section 221 of the Companies Act 2001)

1. Activities

The main activities of the Company are to conduct non-bank deposit taking business and to provide asset finance through finance leases and operating leases.

2. Directors' Remuneration

Remuneration of Executive and Non-Executive Directors from the Company are set out on page 9.

The directors benefit from an indemnity insurance to cover liabilities while performing their duties to the extent permitted by law.

3. Executive Director's Service Contract

Mr Clement Yue-Chi-Ming, Managing Director, has no fixed term contract.

4. Auditors' Remuneration

Please refer to page 12 of the report.

5. Contracts of Significance

The contracts of significance subsisting during the year to which the Company is a party and in which a Director is or was materially interested, either directly or indirectly, relates to the operating lease agreements entered into with the United Docks Ltd for the rental of office space at United Docks Business Park amounting Rs. 1,675,334 for financial year ended 31 Dec 2018.

6. DIVIDEND PAID

FOR THE YEAR ENDED 31 DECEMBER 2018

CORPORATE GOVERNANCE REPORT (CONTINUED)

DIRECTORS' STATEMENT OF RESPONSIBILITIES

The directors acknowledge their responsibilities for:

(i) adequate accounting records and maintenance of effective internal control systems

(ii) the preparation of financial statements which fairly present the state of affairs of the Company as at the end of the financial year and the results of its operations and cash flows for that period and which comply with International Financial Reporting Standards (IFRS)

(iii) the selection of appropriate accounting policies supported by reasonable and prudent judgements.

The external auditors are responsible for reporting on whether the financial statements are fairly presented.
The directors report that:

(i) adequate accounting records and an effective system of internal controls and risk management have been maintained

(ii) appropriate accounting policies supported by reasonable and prudent judgements and estimates have been used consistently

(iii) International Financial Reporting Standards have been adhered to. Any departure in the interest of fair presentation has been disclosed, explained and quantified

(iv) the Code of Corporate Governance has been adhered to in all material aspects and reasons provided for non-compliance.

Approved by the Board of Directors on 29 March 2019 and signed on its behalf by:

Mr. Clement Yue-Chi-Ming
MANAGING DIRECTOR

Mr. Mushtaq Oosman
CHAIRMAN

LA PRUDENCE LEASING FINANCE CO. LTD.
FOR THE YEAR ENDED 31 DECEMBER 2018

STATEMENT OF COMPLIANCE

(Section 75(3) of the Financial Reporting Act)
Name of Public Interest Entity:La Prudence Leasing Finance Co. Ltd
Reporting Period: Year ended 31 December 2018

Throughout the year ended 31 December 2018 to the best of the Board's knowledge La Prudence Leasing Finance Co. Ltd has not complied with the following principle of the Corporate Governance Code for Mauritius (2016).

The area of non-compliance is:

Principle	Area of non-compliance	Explanation
Principle 4	Remuneration of Directors on an individual basis	Please refer to the Remuneration section on Page 10 of the report.

Mr. Clement Yue-Chi-Ming
MANAGING DIRECTOR

Mr. Mushtaq Oosman
CHAIRMAN

DATE: 29 March 2019

LA PRUDENCE LEASING FINANCE CO. LTD.
FOR THE YEAR ENDED 31 DECEMBER 2018

MANAGEMENT DISCUSSION AND ANALYSIS

In this management discussion and analysis, the Company has included certain forward-looking statements which have been based on assumptions and projections for the future. There is the risk that forecasts, projections and other postulations contained therein will not materialise and that actual results may vary materially from the plans and expectations. The Company has no plan to update any forward-looking statements periodically. The reader of this report should, therefore, stand cautioned not to place any undue reliance on such statements.

1 FINANCIAL REVIEW

1.1.1 PERFORMANCE AGAINST OBJECTIVES

	Actual 2017	Budget 2018	Actual 2018	Budget 2019
	%	%	%	%
AREAS OF PERFORMANCE				
REVENUE GROWTH RATIO				
Revenue growth	**12.29%**	**18.86%**	**21.50%**	**17.33%**
EXPENSE GROWTH RATIO				
Interest expense growth	**2.96%**	**18.51%**	**7.36%**	**4.80%**
PRODUCTIVITY RATIO				
Non-interest expense/(Net interest income + other income)	**69.32%**	**72.50%**	**78.69%**	**76.94%**
OVERALL PERFORMANCE RATIO				
Return on equity	**3.53%**	**4.83%**	**2.21%**	**7.59%**
Return on average assets	**0.53%**	**0.68%**	**0.29%**	**1.06%**
Portfolio quality				
- Ratio of adjustment & provision for credit losses to average leases	**3.70%**	**3.76%**	**4.73%**	**4.79%**

Revenue Growth
Total revenue for the year ended 31 December 2018 increased by 9.21% compared to actual 2017. This is mainly explained by the following factors:

- Sales of Finance and Operating Leases have increased in volume compared to 2017 as a result of strong strategic and partnerships actions taken by the management as from beginning of year 2018. The Company is now an active and well-known player in the market
- The pricing strategy of leases has been reviewed during the year to match market rates

Expense Growth ratio
Total interest expenses have gone up by 4.40% compared to actual 2017. This increase in expense growth ratio can be explained by:

- Fresh inflow of funds partly to finance increase in sales volume and partly to comply with BOM guidelines in maintaining a Deposit to Lease ratio greater than 100%
- The interest expenses are lower than budgeted following reduction in interest expense on Fixed Deposits. The decrease in repo rates has made fresh Fixed Deposits cheaper than previous years. The fall can also be explained by the repayments of loans from the banks and the SIC

Productivity Ratio
The productivity ratio, higher than budget 2018, is due to:

- Significant increase in total operating expenses as a result of extensive marketing campaigns and corporate restructuring. Management has developed new aggressive strategies to increase market share which have impacted on costs in the short run but which will yield sustainable profits in the long run
- The operating expenses are higher due to digital transformation outsourcing costs, in line with our new growth strategy developed to improve staff efficiency and become environmental-friendly
- An increase in depreciation of Property, Plant & Equipment as a result of several acquisitions of vehicles under operating lease agreement

Overall Performance ratio
Return on equity is 2.21% compared to a budget of 4.83% and return on average assets is 0.29% compared to a budget of 0.68%. There has been a considerable increase in interest income in 2018 and profitability is at Rs. 16.4m before income tax. Interest received on bank deposits at bank/ treasury bills and bonds was higher due to better cash management remunerated at higher yields. As the tax regime was revised from 17% to 5%, this gave rise to a deferred tax liability of Rs 4.2m, hence explaining the relatively low return on equity as compared to budget and last year. The portfolio quality ratio is 4.73% compared to a budget of 3.76% following adoption of IFRS 9. Management has made adequate provision to be in line with the statutory requirement of the regulatory bodies.

FOR THE YEAR ENDED 31 DECEMBER 2018

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

1.2 REVIEW BY FINANCIAL PRIORITY AREAS (CONTINUED)

1.2.3 COST CONTROL

		2018	2017	2016
		Rs	Rs	Rs
Non – interest expense				
Staff costs		**30,264,912**	22,697,076	16,252,596
Depreciation of property, plant and equipment		**28,297,548**	14,799,136	14,467,687
Amortisation of intangible assets		**494,694**	213,239	246,678
Other expenses		**12,116,686**	9,361,095	7,505,882
Office rent		**1,675,334**	1,467,670	1,234,663
Net foreign exchange loss		**1,095,314**	-	-
Total non-interest expense	**Rs**	**73,944,488**	48,538,216	39,707,506
PRODUCTIVITY RATIO				
Non-interest expense/Total income		**78.69%**	68.66%	65.34%

Non-interest expenses have mostly increased because of the increase in staff cost, professional fees incurred with respect to the digitalization project and IFRS 9 implementation programme and depreciation of Property, Plant & Equipment. The increase in depreciation is due to acquisition of assets classified as operating leases during the year.

1.2.4 CREDIT EXPOSURE AND CONCENTRATION BY SECTOR

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

1.2 REVIEW BY FINANCIAL PRIORITY AREAS (CONTINUED)

1.2.5 CREDIT QUALITY (CONTINUED)

Management reviews the debtors ageing on a weekly basis to assess the progress of unpaid lease rentals. Clients having more than 60 days arrears are closely monitored and are often called to discuss the conduct of their leases.

As far as the expected credit loss ('ECL') on leasing facilities is concerned, the Company adopts a micro-prudential approach. Management continuously scrutinises any exposure in arrears. The adoption of IFRS 9 has fundamentally changed the Company's accounting for loan loss impairments by replacing IAS 39's incurred loss approach with a forward-looking ECL approach. From 1 January 2018, the Company has been recording the allowance for expected credit losses for all leases and other financial assets not held at FVPL. The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL).

Suspension of interest on non-performing facilities is carried out in a structured approach, in line with the relevant Bank of Mauritius Guidelines.

LA PRUDENCE LEASING FINANCE CO. LTD.
FOR THE YEAR ENDED 31 DECEMBER 2018

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

2 CAPITAL STRUCTURE

As a deposit taking institution, the Company is required to maintain net owned funds of not less than Rs200 million.

The Company increased its net owned funds to Rs 200 million in 2008. It maintains at all times a minimum Risk Weighted Capital Adequacy Ratio of at least 10% as required by the Bank of Mauritius.

Leasing companies are required to risk weight the credit risks which form part of their balance sheet assets and maintain a capital adequacy ratio of 10%. For the purpose of assessing capital adequacy, the capital is split into two tiers-Tier 1 core capital and Tier 2 capital.

- Tier 1 capital consist of stated capital, statutory reserve, retained earnings and reserves created by appropriations from post-tax retained earnings. Deferred income taxes and intangible assets are deducted from Tier 1 capital.
- Tier 2 supplementary capital consists of general and portfolio provisions and shall not exceed a maximum of 100% of Tier 1 capital.

At the end of 2018, the Company's capital adequacy ratio was **17.21%** (2017 – 18.42%; 2016 - 20.12%)

The Capital base for the year under review was as follows:

CAPITAL BASE	**2018**	2017	2016
A.Tier 1 Core Capital	**Rs'000**	Rs'000	Rs'000
- Paid up capital	**200,000**	200,000	200,000
- Statutory reserve	**19,118**	18,354	17,046
- General Banking Reserves	**-**	-	-
- Retained earnings	**10,753**	28,728	21,312
	229,870	247,082	238,357
Less			
- Deferred income taxes	**-**	(2,757)	(3,383)
- Intangible assets	**(1,164)**	(402)	(560)
Tier 1 capital	**228,706**	243,923	234,414
B. Tier 2 Supplementary Capital			
General provisions/ Portfolio provisions/ general loan loss reserves against unidentified losses	**22,407**	12,907	11,115
Tier 2 capital	**22,407**	12,907	11,115
C. Total Capital			
Tier 1 : Core Capital	**228,706**	243,923	234,415
Tier 2 : Supplementary capital	**22,407**	12,907	11,115
Total gross capital	**251,114**	256,830	245,530
Total net capital	**251,114**	256,830	245,530
Weighted amount of on-balance sheet assets	**1,459,239**	1,394,399	1,220,197
Capital Adequacy Ratio	**17.21%**	18.42%	20.12%

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

Statutory reserve

The Banking Act 2004 requires the Company to maintain a statutory reserve, wherein 15% of its net profit after tax is required to be transferred from retained earnings, until such time that the statutory reserve will equal the Company's share capital. The Company has accordingly transferred such provision during the year.

The deposits/Shareholder's equity is disclosed below:

	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Total shareholder's equity	**229,870**	247,082	238,357
Total deposits	**1,406,568**	1,336,701	1,192,711
Deposits/Shareholder's equity	**6.12**	5.41	5.00

The Company has maintained above the 10% capital adequacy ratio throughout the year as stipulated by the Bank of Mauritius.

3 RISK MANAGEMENT POLICIES AND CONTROLS

The objective of the Company is to add value to the Company's equity by maximising the risk-adjusted return to the shareholder. The Board of directors is responsible for the reviews, approval and implementation of risk management policies and controls. The Board's approach has been to identify the risk areas, put the necessary controls, ensure continuous assessment, monitor, measure and report.

3.1 CREDIT RISK

Credit risk is the risk of loss due to the inability or unwillingness of counterparty to a financial instrument to fulfil its obligations. This risk is mitigated by a credit assessment of the potential client, adequate deposit by the latter and collateral guarantees.

- The Company employs a range of policies and practices to mitigate credit risk. The most traditional and effective of these is the taking of security for lease given, which is common practice.

The Company maintains records of the payment history for significant contract holders with whom it conducts regular business. The exposure to individual counterparties is also managed by other mechanisms, such as the right of offset where counterparties are both debtors and creditors of the Company.

Management information reported to the Company includes details of provisions for impairment on leases and receivables and subsequent write-offs. Lease receivables are recognised as soon as the contract with the lessee is signed. From 1 January 2018, the Company adopted IFRS 9 and has been recording the allowance for expected credit losses for all leases and other financial assets not held at FVPL. The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL). The Company's policies for determining if there has been a significant increase in credit risk are set out below.

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments.

The Company calculates ECLs based on three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

For banks, the Company transacts only with highly reputable financial institutions. The credit quality of the financial asset can be assessed by the historical information about the financial strengths of the financial institutions the Company is dealing with. In the opinion of the Company, there is no associated risk as these are reputable institutions in the Industry.

3.2 INTEREST RATE RISK

Interest rate risk relates to the movement in interest rates which has a significant adverse effect on the financial condition of the Company. The principal source of funding for our business is fixed deposits from the public which is mostly on a fixed rate. On the other hand, our leases also are mostly on a fixed rate hence ensuring a constant differential. However, any adverse fluctuation in the prevailing Repo Rate will have an impact on the market rates on both deposits and borrowings raised subsequently. Hence, ensuring that there are no mismatches or gaps in amounts of financial assets and liabilities is very important in order to protect the differential. In order to remain competitive in the market, the Company has consistently adjusted both its deposit and lending rates for all new deposits and leases.

3.3 FOREIGN EXCHANGE RATE RISK

The Company has assets and liabilities that are denominated in Mauritian rupees, United States of America Dollars and Euros. Foreign exchange risk relates to the financial risk that exists when a financial transaction is denominated in a currency other than that of the

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

3 RISK MANAGEMENT POLICIES AND CONTROLS (CONTINUED)

base currency of the Company. Most of the transactions are performed in Rupees and there is a minimum exposure in foreign currency transaction. Transactional risks are reduced through swaps in local currency where cross currency transactions are made.

3.4 LIQUIDITY AND SOLVENCY RISK

The objective of liquidity management is to ensure that funds are available or there is assurance of the availability of funds, to honour the Company's cash flow commitments as they fall due, including off-balance sheet outflow commitments in a timely and cost-effective manner.

Liquid assets equivalent to not less than 10 per cent of deposit liabilities are maintained at all times. This is monitored continually and a weekly return of liquid assets and deposits is submitted to the Bank of Mauritius. A solvency test, in compliance with the Section 6 of the Mauritian Companies Act 2001, is prepared and reported in the Assets and Liabilities Committee on a quarterly basis.

3.5 OPERATIONAL RISK

Operational risk is controlled by identifying the different business processes and risk areas and implementing proper business procedures, internal controls and backup procedures. The Company makes use of IT system and technology from reputable suppliers and continuously reviews its processes and has a fully-fledged compliance IT function.

The Board of Directors ensures at all times that there are stringent internal controls over the Company’s operations and has entrusted the review of internal controls through the Board’s Audit Committee to the Company’s internal audit function.

3.6 COMPLIANCE RISK

Compliance risk arises from a failure or inability to comply with the laws, regulations or codes applicable to the financial services industry. Non-compliance can lead to fines, public reprimands, and enforced suspension of operations or, in extreme cases, withdrawal of authorization to operate. The Company in a timely manner responds to all queries of its regulators and complies with applicable laws and regulations.

3.7 LEGAL RISK

Legal risk is the risk that the business activities of the Company have unintended or unexpected legal consequences. It includes risk arising from:

- Inadequate documentation, legal or regulatory incapacity, insufficient authority of a counterparty and uncertainty about the validity or enforceability of a contract in counterparty insolvency;
- Actual or potential violations of law or regulation (including activity unauthorized for a leasing company and which may attract a civil or criminal fine or penalty); and
- The possibility of civil claims (including acts or other events which may lead to litigation or other disputes).

The Company identifies and manages legal risk through effective use of its external legal advisers.

3.8 TAX RISK

Tax risk is the risk of loss or increased charges associated with changes in, or errors in the interpretation of, taxation rates or law. The Company has appointed a tax advisor who ensures compliance with the tax laws and regulations in force in Mauritius.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

4 RELATED PARTY TRANSACTIONS

The Company has on 21 December 2010 set up an Audit and Risk Management committee whose aim, amongst others, is to ensure that Management establishes procedures to comply with the requirements / guidelines on "Related Party Transactions" set down by the Regulatory Body and in compliance with good governance practice. The Committee proposes to review the procedures periodically to ensure their continuing adequacy and enforcement.

As part of its review process, the Committee undertook to review the following:

- risk management policies and prudential limits,
- large exposures and large non-performing accounts,
- all major non-compliance with risk policies and Internal Audit Reports and compliance with statutory and regulatory requirements on risk and exposure limits.
- all major cases of fraud and irregularities relating to operational and other risks.

As at 31 December 2018, the Company's total exposure with related parties was **Rs 109,069,280** (2017 – Rs 106,223,813; 2016 – Rs 109,493,912). This represented **29.40%** (2017 – 43.54%; 2016 – 45.60%) of the Company's Tier 1 Capital, whilst the limit by the Bank of Mauritius Guidelines is 60%.

The guideline was revised in December 2017 by the Bank of Mauritius whereby the definition of fund-based credit exposure should exclude operating leases which came into effect as from 19 December 2017.

The table below shows the Company's exposure to its top ten related parties at 31 December 2018:

	Capital Outstanding Rs	**As a % of Tier 1 capital**
FORGES TARDIEU LIMITED	14,094,889.83	6.16%
REY & LENFERNA LTD	13,344,111.66	5.83%
CEAL LTD	12,000,425.57	5.25%
LABELLING INDUSTRIES LTD	5,815,994.52	2.54%
MERESTONE LTD	5,056,182.20	2.21%
MULTIBOX LTD	4,706,279.24	2.06%
KPMG	3,698,631.98	1.62%
COASTAL HIRE LTD	3,687,679.72	1.61%
LE PORT FOOD CORNER LTD	2,889,764.02	1.26%
COTTONS TRADING LTD	1,927,393.91	0.84%
	67,221,352.65	29.40%

During the year, no exposure to related parties was individually impaired (2017 and 2016 - Nil). Details of Related Party transactions are provided in Note 21 of these financial statements.

5 STATEMENT OF CORPORATE GOVERNANCE PRACTICES

Refer to pages 3–16 in the report of corporate governance.

LA PRUDENCE LEASING FINANCE CO. LTD.
FOR THE YEAR ENDED 31 DECEMBER 2018

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The financial statements of La Prudence Leasing Finance Co Ltd, (the "company" or "LPLF") presented in this annual report have been prepared by management, which is responsible for their integrity, consistency, objectivity and reliability of the information provided therein. International Financial Reporting Standards as well as the requirements of the Banking Act 2004 and the guidelines issued thereunder have been applied and management has exercised its judgement and made best estimates where deemed necessary.

The Company has designed and maintained its accounting systems, related internal controls and supporting procedures, to provide reasonable assurance that financial records are complete and accurate and that assets are safeguarded against loss from unauthorised use or disposal. These supporting procedures include careful selection and training of qualified staff, the implementation of organisation and governance structures providing a well-defined division of responsibilities, authorisation levels and accountability for performance, and the communication of the Company's policies, procedures and guidelines of the Bank of Mauritius throughout the Company.

The Company's Board of Directors, acting in part through the Audit Committee and Conduct Review and Risk Policy Committee, which comprise independent directors, oversees management's responsibility for financial reporting, internal controls, assessment and control of major risk areas, and assessment of significant and related party transactions.

The Company's Internal Auditor, who has full and free access to the Audit Committee, conducts a well-designed program of internal audits in coordination with the Company's external auditor. In addition, the Company's compliance function maintains policies, procedures and programmes directed at ensuring compliance with regulatory requirements.

Pursuant with the provisions of the Banking Act 2004, the Bank of Mauritius makes such examination and inquiry into the operations and affairs of the Company as it deems necessary.

The Company's external auditor, Ernst & Young, has full and free access to the Board of Directors and its Committees to discuss the audit and matters arising thereon, such as its observations on the fairness of financial reporting and adequacy of internal controls.

Authorised for issue by the Board of Directors on 29 March 2019
and signed on its behalf by:

SECRETARY'S REPORT

LA PRUDENCE LEASING FINANCE CO. LTD.

Under Section 166(d) of the Mauritian Companies Act 2001

We certify that we have filed with the Registrar of Companies all such returns as required of the Company under the Mauritian Companies Act 2001 for the financial year ended 31 December 2018.

ECS Secretaries Ltd
SECRETARY

Date: 29 March 2019

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF LA PRUDENCE LEASING FINANCE CO. LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of La Prudence Leasing Finance Co. Ltd. (the "Company") set out on pages 40 to 92 which comprise the statement of financial position as at 31 December 2018, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements give a true and fair view of, the financial position of the Company as at 31 December 2018, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards and comply with the Companies Act 2001, Banking Act 2004 and Financial Report Act 2004.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matter that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risk of material misstatement (whether or not due to fraud) that we identified. These matters included those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements, as a whole, and in our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF LA PRUDENCE LEASING FINANCE CO. LTD. (CONTINUED)

Report on the Audit of the Financial Statements (continued)

Key Audit Matters (continued)

Risk	Our response to the risk
Impairment of finance leases to customers	
On 01 January 2018, a new accounting standard for financial instruments (IFRS 9) became effective, which introduced impairment based on expected credit losses, rather than the incurred loss model previously applied under IAS 39. At 31 December 2018 the Company reported total gross finance lease to customers of Rs 1.4bn and Rs 61.9m of expected credit loss provisions. Key judgements and estimates in respect of the timing and measurement of expected credit losses ("ECL") include: • Allocation of assets to stage 1,2, or 3 using criteria in accordance with the accounting standard; • Accounting interpretations and modelling assumptions used to build the models that calculate the ECL; • Completeness and accuracy of data used to calculate the ECL; • Inputs and assumptions used to estimate the impact of macro-economic factors; • Measurements of individually assessed provisions; and • Accuracy and adequacy of the financial statement disclosures	As IFRS 9 was adopted at the start of the year, we performed audit procedures on the opening balances to gain assurance on the transition from IAS 39. This included evaluating the accounting interpretations for compliance with IFRS 9 and testing the adjustments and disclosures made on transition. We tested the design and the operating effectiveness across the processes relevant to the ECL. This included the criteria definition for stages, the allocation of assets into these stages, model governance, data accuracy and completeness, credit monitoring, macro-economic factor, individual provisions and production of journal entries and disclosures. We challenged the criteria used to allocate an asset to stage 1,2 or 3 in accordance with IFRS 9. We tested assets in stage 1,2 and 3 to verify that they were allocated to the appropriate stage. With the support of our internal specialist, we tested the assumptions, inputs and formulas used in the ECL model. This included assessing the appropriateness of model design, regression model, formulas used, recalculating the probability of default, loss given default and Exposure at default. We tested the data used in the ECL calculation by reconciling to source information With the assistance of our internal specialist, we assessed the baseline and alternative scenarios, including challenging probability weights. We assessed the macroeconomic factor used and assessed the correlation and impact of the macroeconomic factor to the ECL. We recalculated a sample of individually assessed provisions including comparing to alternative scenarios. We assessed the adequacy and appropriateness of disclosures for compliance with the accounting standards including disclosure of transition from IAS 39.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF LA PRUDENCE LEASING FINANCE CO. LTD. (CONTINUED)

Report on the Audit of the Financial Statements (Continued)

Responsibilities of the Directors for the Financial Statements

The directors are responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act 2001, Banking Act 2004 and Financial Report Act 2004 and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intends to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Other Information

The directors are responsible for the other information. The other information comprises the Report of Corporate Governance, Statement of Compliance, Management Discussion and Analysis, Statement of Management's Responsibility for Financial Reporting and Secretary's Report as required by the Companies Act 2001, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Corporate Governance Report

Our responsibility under the Financial Reporting Act 2004 is to report on the compliance with the Code of Corporate Governance disclosed in the annual report and assess the explanations given for non-compliance with any requirement of the Code. From our assessment of the disclosures made on corporate governance in the annual report, the public interest entity has, pursuant to section 75 of the Financial Reporting Act 2004, complied with the requirements of the Code.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF LA PRUDENCE LEASING FINANCE CO. LTD. (CONTINUED)

Report on Other Legal and Regulatory Requirements

Companies Act 2001

We have no relationship with or interests in the Company other than in our capacity as auditor, tax advisors and dealings in the ordinary course of business.

We have obtained all the information and explanations we have required.

In our opinion, proper accounting records have been kept by the Company as far as it appears from our examination of those records.

Banking Act 2004

In our opinion, the financial statements have been prepared on a consistent basis and are complete, fair and properly drawn up and comply with the Banking Act 2004 and the regulations and guidelines of the Bank of Mauritius.

The explanations or information called for or given to us by the officers or agents of the Bank were satisfactory.

1. GENERAL INFORMATION

La Prudence Leasing Finance Co. Ltd (the "Company") is a non-bank deposit taking institution that provides assets finance through finance leases and operating leases. The Company is a limited liability company and is incorporated and domiciled in Mauritius. The address of the registered office and principal place of business is United Docks Business Park, Kwan Tee Street, Caudan, Port-Louis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

A Basis of preparation

The financial statements have been prepared on a historical cost basis, except where otherwise stated. The financial statements are presented in Mauritian Rupees rounded to the nearest rupee, except where otherwise stated. The financial statements comply with the Companies Act 2001 and have been prepared in accordance with International Financial Reporting Standards (IFRS).

The Board of Directors has made an assessment of the Company's ability to continue as a going concern and is satisfied that it has the resources to continue business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

(a) Critical accounting judgements and estimates.

The Company makes judgements, estimates and assumptions affecting the reported amounts of revenues, expenses, assets and liabilities. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

Judgements

In preparing the financial statements, the directors had to consider whether the significant risks and rewards of ownership are transferred to the lessees in determining whether the leases should be classified as finance or operating lease. The Board of directors makes use of the guidance as set out in IAS17 leases to classify leases between finance and operating leases.

Estimates and assumptions

(a) Impairment losses on leases under IAS 39 effective up to 01 January 2018

The Company reviews its lease portfolio to assess impairment at least on a quarterly basis. In determining whether an impairment loss should be recorded in profit or loss, the Company makes judgements as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of leases before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of lessees, or national or local economic conditions that correlate with defaults on assets in the portfolio. The Board of Directors uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experienced. To determine the amount of impairment losses on impaired leases, the Board of Directors takes into account the recoverable amount of collaterals for impaired leases as determined by professional valuers.

Non-performing leases relate to leases that have instalments due for more than 3 months and that have been considered in the specific provision for impairment losses on finance leases.

(b) Allowance for ECL on leases under IFRS 9 effective as from 01 January 2018

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' (ECL) model. The measurement of impairment losses under IFRS 9 across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. Changes in economic factors which are determined on a probability-weighted basis, also affect ECLs. The Company's ECL calculations are outputs of complex models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered, accounting judgements and estimates include:

- The Company's internal credit grading model, which assigns PDs to the individual grades
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a Lifetime ECL basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A Basis of preparation (Continued)

Estimates and assumptions (Continued)

(b) Allowance for ECL on leases under IFRS 9 effective as from 01 January 2018 (Continued)

- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as inflation rate and the effect on PDs, EADs and LGDs
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

The Company shall revise the model every two years for future refinements and possible updates so as to allow the model to adapt with changing environment and economic factors in an efficient manner.

(c) *Deferred income tax asset*

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

The directors have recognised deferred income tax liabilities of **Rs 4,243,553** as at 31 December 2018 (2017: Deferred tax asset: Rs 2,757,267 and 2016: Deferred tax asset: Rs 3,382,952) as the Company is generating taxable profits and is expected to continue generating taxable profits in the foreseeable future based on budgets and forecasts.

B. Changes in accounting policy and disclosures

(a) New and amended standards and interpretations

The Company applied for the first time certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2018. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

The nature and the effect of these changes are disclosed below. Although these new standards and amendments have been applied for the first time in 2018, they did not have a material impact on the annual financial statements of the Company. The nature and the impact of each new standard or amendment applicable to the Company is described below:

***(i) Adoption of IFRS 9* Financial Instruments**

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments that replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for the financial instruments project: classification and measurement; impairment; and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required, but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions. The Company has not restated comparative information for 2017 for financial instruments in the scope of IFRS 9. Therefore, the comparative information for 2017 is reported under IAS 39 and is not comparable to the information presented for 2018. Differences arising from the adoption of IFRS 9 have been recognised directly in retained earnings as of 1 January 2018 and are disclosed below.

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Company’s business model for managing them. The Company initially measures a financial assets at its fair value plus, in case of financial assets not at fair value through profit or loss, transaction costs.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are ‘solely payment of principal and interest’ on the principal amount outstanding. This assessment refers to the SPPI test and is performed at an instrument level.

The business model assessment

The Company determines its business model at the level that best reflects how its manages groups of financial assets to achieve its business objective.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Changes in accounting policy and disclosures (Continued)

(i) Adoption of IFRS 9 Financial Instruments (Continued)

The business model assessment (Continued)

The Company business model is not assessed on an instrument by instrument basis, but at a higher level of aggregated portfolio and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risk are managed;
- The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realised in a way that is different from the Company's original expectations, the Company does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

The SPPI test

As a second step of its classification process the Company assess the contractual terms of financial to identify whether they meet the SPPI test.

'Principal' for the purpose of this test is defined as the fair value of the financial assets at initial recognition and may change over the life of the financial assets.

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Company applies judgement and considers relevant factors such as the currency in which the financial asset is denominated, and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such case, the financial asset is required to be measured at fair value through profit or loss.

IFRS 9 Financial Instruments sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics. IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income and fair value through profit and loss. The standard eliminates the existing IAS 39 categories of held to maturity, loans and receivables and available for sale.

The classification of the Company's financial assets are as follows:

All financial assets consisting of debt instruments shall be classified as 'hold to collect'. Hence, there shall be no financial assets that will be classified as 'hold to collect and sell'.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification of financial liabilities. All of the financial liabilities shall be classified and measured at amortised cost.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Changes in accounting policy and disclosures (Continued)

(i) Adoption of IFRS 9 Financial Instruments (Continued)

The SPPI test (Continued)

IFRS 9 replaces the 'incurred loss' model in IAS 39 with a forward-looking 'expected credit loss' (ECL) model. This required considerable judgement about how changes in economic factors affect ECLs, which was determined on a probability-weighted basis.

The new impairment model applies to financial assets measured at amortised cost or FVOCI. Under IFRS 9, loss allowances are measured on either of the following bases:

- 12-month ECLs: these are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of a financial instrument.

The Company chose to apply the 12-months ECLs and Lifetime ECLs for finance lease to customers with a significant financing component.

The Company adopted IFRS 9 Financial Instruments as from 1 January 2018. The impact of the adoption of these standards on the Company's equity as at 1 January 2018 is based on assessments undertaken at the date of initial application and is summarised below.

		Impact of adoption of IFRS 9	
	As reported at 31 December 2017	**Adjustments due to adoption of IFRS 9**	**Adjusted opening balance at 01 January 2018**
	Rs. 000	**Rs. 000**	**Rs. 000**
Retained earnings	**28,728**	**(12,392)**	**16,336**

The total adjustment (net of tax) to the opening balance of the Company's equity at 1 January 2018 is Rs. 12.4m. The principal components of the adjustment are as follows.

- A decrease of Rs. 12.4m in retained earnings, due to earlier recognition of provision of credit losses as below:

	Additional impairment recognised at 01 January 2018
	Rs. 000
Finance leases to customers	**14,930**
Gross additional impairment losses	**14,930**

	Adjustment to equity at 01 January 2018
	Rs. 000
Effect of IFRS 9	**(14,930)**
Deferred tax effect @17%	**2,538**
Movement in Retained Earnings	**(12,392)**

(ii) Hedge accounting

The Company does not apply hedge accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Changes in accounting policy and disclosures (Continued)

(iii) Transition

Changes in accounting policies resulting from the adoption of IFRS 9 was applied as described below.

– The Company took advantage of the exemption allowing it not to restate comparative information for prior periods with respect to classification and measurement (including impairment) changes. Differences in the carrying amounts of financial assets and financial liabilities resulting from the adoption of IFRS 9 will generally be recognised in retained earnings and reserves as at 1 January 2018.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Changes in accounting policy and disclosures (Continued)

(iv) *IFRS 15 Revenue from Contracts with Customers*

IFRS 15 was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018. Early adoption is permitted.

The Company assessed the potential effect of the new standard on the required effective date using the full retrospective method. The company will not be affected by IFRS 15 as revenue is recognised under IAS 17 Leases.

(a) Accounting standards and interpretations issued but not yet effective

Standards and interpretations issued but not yet effective up to the date of issuance of the Company's financial statements are listed below. The listing is of standards and interpretations issued, which the Company reasonably expects to be applicable at a future date. The Company intends to adopt those standards when they become effective.

	Effective for accounting period beginning on or after
IFRS 16 Leases	1 January 2019

IFRS 16 Leases

IFRS 16 was issued in January 2016 and it replaces IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease. IFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under IAS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to re-measure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). The lessee will generally recognise the amount of the re-measurement of the lease liability as an adjustment to the right-of-use asset. Lessor accounting under IFRS 16 is substantially unchanged from today's accounting under IAS 17. Lessors will continue to classify all leases using the same classification principle as in IAS 17 and distinguish between two types of leases: operating and finance leases.

IFRS 16 also requires lessees and lessors to make more extensive disclosures than under IAS 17. IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Early application is permitted, but not before an entity applies IFRS 15. A lessee can choose to apply the standard using either a full retrospective or a modified retrospective approach. The standard's transition provisions permit certain reliefs. The Company would adopt IFRS 16 on a modified retrospective approach.

In 2018, the Company has assessed the estimated impact that the initial application of IFRS 16 will have on its financial statements. The estimated impact of the adoption of the standard on the Company's equity as at 1 January 2019 is based on assessments undertaken to date and is summarised below.

	Rs. 000
Assets	
Right-of-use asset	**5,616**

	Rs. 000
Liabilities	
Lease liability	**(5,616)**
Net impact on equity	-

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

D Foreign currency translation

(a) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Mauritian rupees, which is the Company's functional currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

E Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

F Assets Held For Sale

The company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

The criteria for held for sale classification is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the plan to sell the asset and the sale expected to be completed within one year from the date of the classification.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale.

Assets classified as held for sale are presented separately as current items in the statement of financial position.

G Financial assets

(i) Classification and Measurement

Under IAS 39 (Up to 31 December 2017)

The Company classifies its financial assets, consisting mainly of cash and cash equivalents, fixed deposits, corporate bonds and other assets such as loans and receivables. The Company does not have any financial assets classified in the other IAS 39 categories of financial assets.

Loans and receivables are non-derivative assets with fixed or determinable payments that are not quoted in an active market other than : (a) those that the Company intends to sell immediately or in the short term, which are classified as held for trading, and that the Company upon initial recognition designates as at fair value through profit or loss; (b) those that the Company upon recognition designates as available-for-sale and; (c) those for which the holder may not recover substantially all of its initial investment, other than because of credit deterioration. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at the end of every reporting period.

Loan and receivables are initially recognised at fair value – which is the cash consideration to originate or purchase the loan including any transaction costs - -and measured subsequently at amortised cost using the effective interest method.

The Company does not hold any held to maturity investment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G Financial assets (Continued)

(i) Classification and Measurement (Continued)

Under IFRS 9 (As from 1 January 2018)

The Company classifies its financial assets, consisting mainly of cash and cash equivalents, fixed deposits, corporate bills/bonds and other assets under amortized cost measurement model. The Company does not have any financial assets classified in the other IFRS 9 categories of fair value through other comprehensive income (OCI) and fair value through profit or loss.

The classification of the Company's financial assets are as follows:

Financial instrument	**Solely Principal Plus Interest**	**Business model**	**Classification**
Cash and cash equivalents	Yes	Hold to collect	At amortised cost
Fixed deposits	Yes	Hold to collect	At amortised cost
Finance leases to customers	Yes	Hold to collect	At amortised cost
Other assets (excluding nonfinancial assets)	Yes	Hold to collect	At amortised cost

All financial assets consisting of debt instruments are classified as 'hold to collect'. Hence, there are no financial assets that are classified as 'hold to collect and sell'.

For purpose of subsequent measurement, the Company measures financial assets at amortised cost if both of the following conditions are met:

- The financial assets is held within a business model with the objective to hold financial assets in order to collect contractual cash flow;
- The contractual terms of the financial assets give rise on specified dates to cash flow that are solely payments of principal and interest on principal amount outstanding.

Financial assets at amortised cost are subsequently measured using effective interest rate method and are subject to impairment. Gains and losses are recognised in profit or loss when the assets is derecognised, modified or impaired.

(ii) Recognition and derecognition

Regular purchases or sales of financial assets are recognised on the trade date on which the Company commits to purchase or sell the asset. They are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all risk and rewards of ownership.

H Leases

Leases are divided into finance leases and operating leases.

(a) The Company is the lessee

(i) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments, including pre-payments, made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

The total payments made under operating leases are charged to 'operating lease expenses' on a straight-line basis over the period of the lease. When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

(b) The Company is the lessor

(i) Operating lease

Assets subject to operating leases are presented in the statement of financial position according to the nature of the asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H Leases (Continued)

(ii) Classification and Measurement (Continued)

(b) The Company is the lessor

(ii) Finance lease

Recognition and initial measurement

Under a finance lease, substantially all the risks and rewards incidental to legal ownership are transferred by the Company, and thus the lease payment receivable is treated by the Company as repayment of principal and interest to reimburse and reward the lessor for its investment and services.

Initial direct costs such as commissions, legal fees and internal costs that are incremental and directly attributable to negotiating and arranging a lease, but excluding general overheads, are included in the initial measurement of the finance lease receivable and reduce the amount of income recognised over the lease term. The interest rate implicit in the lease is defined in such a way that the initial direct costs are included automatically in the finance lease receivable; there is no need to add them separately.

Subsequent measurement

The recognition of interest income shall be based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the finance lease.

The Company aims to allocate interest income over the lease term on a systematic and rational basis. This income allocation is based on a pattern reflecting a constant periodic return on the Company's finance lease receivable. Lease repayments relating to the period, excluding cost for services, are applied against the gross investment in the lease to reduce both the principal and the unearned finance income.

Estimated unguaranteed residual values used in computing the Company's gross investment in a lease are reviewed regularly. If there has been a reduction in the estimated unguaranteed residual value, the income allocation over the lease is revised any reduction in respect of amounts accrued is recognised immediately.

(c) Fees paid in connection with arranging leases

The Company makes payments to agents for services in connection with negotiating lease contracts with the Company's lessees. For operating leases, the letting fees are capitalised within the carrying amount of the related asset, and depreciated over the life of the lease.

I Impairment of financial assets (carried at amortised cost

The Company assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a "loss event") and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

The criteria that the Company uses to determine that there is objective evidence of an impairment loss include:

- Significant financial difficulty of the issuer or the obliger;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- Significant cash flow or financial difficulties experienced by the borrower (for example, equity ratio, net income percentage of sales);
- Breach of lease agreements or conditions;
- The lender for economic or legal reasons relating to the borrower's financial difficulty, granting to the borrower a concession that the lender would not otherwise consider;
- Initiation of bankruptcy proceedings by the borrower;

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I Impairment of financial assets (carried at amortised cost (Continued)

- Deterioration of the borrower's competitive position;
- Deterioration in the value of collateral; and
- Observable data indicating that there is a reasonable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the portfolio, including:
  - Adverse change in the payment status of borrowers in the portfolio; and
  - Natural or local economic conditions that correlate with defaults in the assets of that portfolio.

The estimated period between a loss occurring and its identification is determined by local management for each identified portfolio. In general, the periods used vary between three months and 12 months; in exceptional cases, longer periods are warranted.

Finance leases to customers

(i) Under IAS 39 Model (Up to 31 December 2017)

The Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

An allowance for impairment is established if there is objective evidence that the Company will not be able to collect the amount due according to the original contractual terms of the lease. The amount of impairment loss on loans and receivables, comprising mainly of financial leases to customers carried at amortised cost is the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the statement of comprehensive income. If a finance lease or held-to-maturity investment has a variable interest rate, the discount rates for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical experience, the Company may measure impairment on the basis of an instrument's fair value using an observable market price.

The calculation of present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining or selling the collateral, whether or not foreclosure is probable.

For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics (that is, on the basis of the Company's grading process that considers asset type, industry, geographical location, collateral type, past-due status and other relevant factors). Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets in the group and historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

Estimates of changes in future cash flows for groups of assets should reflect and be directionally consistent with changes in related observable data from period to period (for example, changes in unemployment rates, property prices, payment status, or other factors indicative of changes in the probability of losses in the Company and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Company to reduce any differences between loss estimates and actual loss experience.

When a lease is uncollectible, it is written off against the related provision for lease impairment. Such leases are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loans impairment in the statement of comprehensive income.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the statement of comprehensive income in impairment charge for credit losses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I Impairment of financial assets (carried at amortised cost (Continued)

(i) Under IFRS 9 Model (As from 1 January 2018)

The adoption of IFRS 9 has fundamentally changed the Company's accounting for loan loss impairments by replacing IAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach. From 1 January 2018, the Company has been recording the allowance for expected credit losses for all loans and other financial assets not held at FVPL. The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12mECL). The Company's policies for determining if there has been a significant increase in credit risk are set out below.

The 12mECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12mECLs are calculated on either an individual basis or a collective basis, depending on the nature of the underlying portfolio of financial instruments. The Company's policy for grouping financial assets measured on a collective basis is explained as follows:

- Stage 1 includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month expected credit losses ('ECL') are recognized.

- Stage 2 includes financial instruments that have had a significant increase in credit risk since initial recognition (unless they have low credit risk at the reporting date) but that do not have objective evidence of impairment. For these assets, lifetime ECL are recognized.

- Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime ECL is recognized. When a financial asset becomes credit impaired and is, therefore,regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis..

The above approach is quantitatively modelled using following formula:

Expected Credit Losses = Probability of default (PD) x Exposure at default (EAD) x Loss given default (LGD)

For financial assets for which the Bank has no reasonable expectations of recovering either the entire outstanding amount, or a proportion thereof, the gross carrying amount of the financial asset is reduced. This is considered a (partial) derecognition of the financial asset.

The Company calculates ECLs based on a three probability-weighted scenarios to measure the expected cash shortfalls, discounted at an approximation to the EIR. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive.

The mechanics of the ECL calculations are outlined below and the key elements are, as follows:

- **Probability of default:** It defines the probability of a borrower to default in its commitment over a time of the asset. In IFRS 9 context, PD is calculated for two-time horizon namely 12 Months PD and life time PD.

(1) 12 Months PD: likelihood of default in 12 months for an asset
(2) Life time PD: likelihood of default in the lifetime of an asset

- **Exposure at default:** It is the total amount of an asset the entity is exposed to at the time of default. EAD is defined based on the characteristics of the asset. For example in a loan portfolio, EAD is dependent on the outstanding exposure of an asset, sanctioned amount of a loan, expected cash flow and credit conversion factor for non-funded exposures.

- **Loss given default:** It is the part of an asset that is lost provided the asset default. The recovery rate is derived as a ratio of discounted value of recovery cash flows (incorporating the recovery time) to total exposure amount at the time of default. Recovery rate is calculated for each segment separately. Loss given default is computed as (1 - recovery rate) in percentage terms. LGD is measured in a way that reflects the time value of money. This means that cash shortfalls associated with default are required to be discounted back to the balance sheet date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I Impairment of financial assets (carried at amortised cost (Continued)

(ii) Under IFRS 9 Model (As from 1 January 2018) (Continued)

Definition of default and cure

The Company considers a financial instrument or lease defaulted and stage 3 (credit-impaired) for ECL calculations in all cases when the borrower becomes 90 days past due on its contractual payments.

As part of a qualitative assessment of whether a customer is default, the Company also considered a variety of instances that may indicate unlikeliness to pay. When such events occur, the Company considers whether the event should result in treating the customer as default and therefore assessed as stage 3 for ECL calculations or whether Stage 2 is appropriate. Such events include:

- the debtor filing for bankruptcy application
- Internal rating of the borrower indicating default or near default
- The borrower is decreased

The Company's policy to consider a financial instrument or lease as cured and therefore re-classified out of stage 3 when none of the default criteria have been present. The decision whether to classify an asset as stage 2 or stage 1 once cured depends on the updated credit grade, at the time of the cure, and whether this indicates a significant decrease in credit risk

Significant increase in credit risk

The Company continuously monitors all assets subject to ECLs. In order to determine whether an instrument or a portfolio of instruments is subject to 12 months ECL, the Company assess whether there has been a significant increase in credit risk since initial recognition. The Company considers an exposure to have significant increase in credit risk when the days past due is between 30 days to 90 days.

J Intangible assets

Costs associated with maintaining computer software programmes are recognised as an expense when incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Company are recognised as intangible assets when the following criteria are met:

- it is technically feasible to complete the software product so that it will be available for use;
- management intends to complete the software product and use or sell it;
- there is an ability to use or sell the software product;
- it can be demonstrated how the software product will generate probable future economic benefits;
- adequate technical, financial and other resources to complete the development and to use or sell the software product are available: and
- the expenditure attributable to the software product during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software product include the software development employee costs and an appropriate portion of relevant overheads.

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Expenditure which enhances or extends the performance of computer software programmes beyond their original specifications is recognised as a capital improvement and added to the original cost of the software. Computer software development costs recognised as assets are amortised over their useful lives, which does not exceed 5 years.

K Property, plant and equipment

All property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K Property, plant and equipment (Continued)

Depreciation is calculated using the straight line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Fixtures and fittings	10 Years
Computer equipment	4 Years
Motor vehicle	4 Years
Operating lease vehicle/equipment	1 – 7 Years

The asset’s residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. An asset’s carrying amount is written down immediately to its recoverable amount if the asset’s carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss.

L Financial liabilities – Other liabilities measured at amortised cost

Financial liabilities carried at amortised cost consist mainly of deposits from customers, other borrowed funds and other liabilities. These financial liabilities are recognised initially at fair value, net of transaction costs incurred. They are subsequently stated at amortised cost; using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well through the effective interest rate method (EIR) amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in “interest expense” in profit or loss.

Financial liabilities are derecognised only when the obligation is discharged, cancelled or expired.

M Current and deferred income tax

The income tax expense for the year comprises current income tax, deferred income tax and Corporate Social Responsibility (‘CSR’) tax.

Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantially enacted by the end of the reporting period in Mauritius. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit nor loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred income tax is provided on temporary differences arising on amortisation of intangible assets, depreciation of property, plant and equipment and provision for credit losses, except where the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

M Current and deferred income tax (Continued)

Corporate Social Responsibility

In line with the definition within the Income Tax Act 1995, Corporate Social Responsibility (CSR) is regarded as a tax and is therefore subsumed with the income tax shown within profit or loss and the income tax liability on the statement of financial position.

The CSR charge for the current period is measured at the amount expected to be paid to the Mauritian Tax Authorities. The CSR rate and laws used to compute the amount are those charged or substantively enacted by the end of the reporting period.

Value Added Tax

Revenues, expenses and assets are recognized net of amount of value added tax except:

- Where the value added tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the value added tax is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- Receivables and payables that are stated with the amount of value added tax included.

The net amount of value added tax recoverable from, or payable to, the taxation authority is included as part of the receivables or payables in the statement of financial position.

N Employee benefits

(1) Pension obligations

The Company provides retirement benefits for its employees through a defined contribution plan which is funded by contributions from the Company. Under the defined contribution plan, the Company has no legal or constructive obligation to contribute further to what has been contributed into the fund as defined in the rules of the scheme. Pension contributions are charged to the statement of comprehensive income in the year to which they relate. The Company has an obligation under the current labour laws to pay a severance allowance on retirement of its employees and is allowed to deduct from this severance allowance up to five times the amount of any annual pension granted at retirement age from the said fund.

The present value of the severance allowance payable under the Employment Rights Act 2008 is calculated annually by independent actuaries using the projected unit credit method. The present value of the severance allowance is determined by the estimated future cash outflows using a discount rate by reference to current interest rates and the yield on bonds and treasury bills and recent corporate debenture issues.

Where the present value of the severance allowance payable on retirement is greater than five years of pension payable under the pension plan, the additional severance allowance payable is recognised as a liability and disclosed as unfunded obligations under retirement benefits obligations.

(2) Termination benefits

Termination benefits become payable whenever an employee's employment is terminated before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed formal plan without possibility of withdrawal or to provide termination benefits as a result of an offer made to encourage voluntary redundancy.

O Provisions

Provisions for restructuring costs and legal claims are recognised when: the Company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

O Provisions (Continued)

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

P Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. The company recognises trade payables as a financial liability.

Q Share capital

Ordinary shares are classified as equity.

R Revenue recognition

Finance lease income is recognised over the term of the lease using the net investment method, which reflects a constant periodic rate of return on the net investment amount outstanding on the finance leases.

Operating lease income is recognised over the term of the lease using the straight line method. Other income is generally recognized on an accrual basis when the service has been provided.

S Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholder.

T Interest income and expense

Interest income is recognised using the effective interest method, taking account of the principal outstanding and the effective rate over the period to maturity, when it is determined that such income will accrue to the Company.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Company estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses.

The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

U Fee and commission income

Fees and commissions are generally recognised on an accrual basis when the service has been provided. Lease commitment fees for leases that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the lease. Lease syndication fees are recognised as revenue when the syndication has been completed and the Company has retained no part of the lease package for itself or has retained a part at the same effective interest rate as the other participants. Commission and fees arising from negotiating, or participating in the negotiation of, a transaction for a third party – such as the arrangement of the acquisition of shares or other securities, or the purchase or sale of businesses – are recognised on completion of the underlying transaction. Portfolio and other management advisory and service fees are recognised based on the applicable service contracts, usually on a time-apportionate basis. Performance-linked fees or fee components are recognised when the performance criteria are fulfilled.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

V Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). The impairment test also can be performed on a single asset when the fair value less cost to sell or the value in use can be determined reliably. Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

W Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowing costs are recognised in the statement of comprehensive income in the period in which they occur.

X Measurement of Fair Value

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

3. FINANCIAL RISK MANAGEMENT

By its nature, the Company's activities are principally related to the use of financial instruments. The Company accepts deposits from customers at fixed and variable rates and for various periods and seeks to earn above average interest margins by investing these funds in fixed and variable rate finance and operating leases. The Company seeks to increase these margins by consolidating short-term funds and lending for longer periods at higher rates whilst maintaining sufficient liquidity to meet all claims that might fall due.

The Company also seeks to raise its interest margins by obtaining above average margins, net of provisions, through lending to customers operating in different economic sectors and with a range of acceptable credit standing. Such exposures involve only finance leases on the statement of financial position as the Company does not offer off-statement of financial position facilities such as guarantees and other commitments.

The Company's activities therefore expose it to a variety of financial risks which are as follows; credit risk, market risk (including other price risk, currency risk and interest rate risk) and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.1 Credit risk

The Company takes on exposure to credit risk, which is the risk that a counterparty will cause a financial loss for the Company by failing to discharge an obligation. Credit risk is the most important risk for the Company's business; management therefore carefully manages its exposure to credit risk. Credit exposures arise principally in leasing activities. Exposures to credit risk for leases receivable is managed through analysis of the ability of the borrowers to meet interest and capital repayment obligations and by changing lending limits where appropriate. Exposure to credit risk is also managed by obtaining collateral guarantees.

Credit risk is the single largest risk for the Company's business; the directors therefore carefully manage the exposure to credit risk. The credit risk management and control are centralised in a credit risk management team, which reports to the Board of Directors.

3.1.1 Credit risk measurement

The estimation of credit exposure is complex as the value of a product varies with changes in market variables, expected cash flows and the passage of time. The assessment of credit risk of a portfolio of assets entails further estimations as to the likelihood of defaults occurring, of the associated loss ratios and of default correlations between counterparties.

The credit risk assessment procedures are as follows:

3.1.2 Credit risk mitigation, collateral and other credit enhancements

The Company uses a wide variety of techniques to reduce credit risk on its lending. The most fundamental of these is performing an assessment of the ability of a borrower to service the proposed level of borrowing without distress. It is the Company's policy to establish that leases are within the customer's capacity to repay, rather than to rely excessively on security and as a result, depending on the customer's standing and the type of product, facilities may be unsecured.

Nevertheless, collateral can be an important mitigant of credit risk and the Company commonly obtains security for the funds advanced and as such for lease facilities, the Company secures ownership of the asset until full repayment of the lease facility. The ownership of the vehicles and equipment financed remain the property of the Company until full settlement of the lease and after which title is transferred to the lessee.

Collateral for impaired leases is reviewed regularly and at least annually, to ensure that it is still enforceable and that the impairment allowance remains appropriate given the current valuation. Where the collateral has decreased in value, an additional impairment allowance may be considered. Conversely, increases in collateral value may result in a release of the impairment allowance. The Company will consider all relevant factors, including local market conditions and practices, before any collateral is realised.

Security structures and legal covenants are subject to regular review, at least annually, to ensure that they remain fit for purpose and remain consistent with accepted local market practice. The Company actively manages its credit exposures. When weaknesses in exposures are detected – either in individual exposures or in groups of exposures – the Company takes action to mitigate the risks. Such actions may include reducing the amounts outstanding or limiting additional facilities through discussion with the customers, clients or counterparties, if appropriate.

Impairment assessment (policy applicable as from 1 January 2018)

For banks, the Company transacts only with highly reputable financial institution. The credit quality of this financial asset can be assessed by the historical information about the financial strength of the financial institutions the Company is dealing with. These are reputable institutions in the industry and therefore no risk associated to them.

For other financial assets, these are kept with financial institutions of high repute and therefore the credit risk with respect to those financial assets is not significant.

The Company computes ECL either on a collective or an individual basis.
Asset classes where the Company calculates ECL on an individual basis include all stage 3 assets, regardless of the class of financial assets.

Assets classes where the Company computes ECL on a collective basis includes:

- The small and more generic balances of the Company; and
- Stage 1 and stage 2 leases

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.1 Credit risk (Continued)

3.1.2 Credit risk mitigation, collateral and other credit enhancements (Continued)

Collateral and other credit enhancements

The amount and type of collateral required depends on the assessment of the credit risk of the counterparty. Guidelines are in place covering the acceptable and valuation of each type of collateral. In the its normal course of the business, the Company does physically repossess the assets in its portfolio, but undertakes to recover funds, generally at auction, to settle outstanding debt.

Finance lease to customers

The movement in the credit allowance for finance lease to customers are disclosed in Note 4(c).

Credit risk from finance lease to customers is managed by the recovery department in accordance with the Company's recovery policy. The maximum exposure to credit risk at the reporting date is the carrying value of finance lease to customers as disclosed in Note 4. During the year, 764 new leases were disbursed which amounted to Rs 546.7m. At year end, ninety six percent of those new leases stay in stage 1 where 12 months expected credit loss is recognised. While for the remaining four percent, a lifetime expected credit loss was used.

3.1.3 Maximum exposure to credit risk before collateral held or other credit enhancements

The following table presents the maximum exposure as at 31 December 2018, 2017 and 2016 to credit risk on financial instruments in the statement of financial position, before taking account of any collateral held or other credit enhancements after allowance for impairment and netting where appropriate.

Maximum exposure to credit risk before collateral held or other credit enhancements

	Maximum exposure		
	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Cash and cash equivalents	**93,042**	236,606	270,406
Other financial assets	**140,582**	60,134	28,529
Finance leases :			
Individuals	**601,957**	529,170	394,553
Corporate entities	**728,518**	757,610	755,496
Other assets	**1,545**	2,874	15,355
	1,565,644	1,586,394	1,464,339

For financial assets recognized in the statement of financial position, the exposure to credit risk equals their carrying amount. The company is the sole owner of lease assets until the lessees settles the lease contract. Each lease contract has a fixed charge on the assets financed which equals their carrying value. Other assets exclude prepayments and VAT receivable amounting to 2018: **Rs 18,226,161** (2017: Rs 13,373,493; 2016: Rs 7,331,839).

LA PRUDENCE LEASING FINANCE CO. LTD.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.1 Credit risk (Continued)

3.1.5 Finance leases

For the purposes of the Company's disclosures regarding credit quality, its finance leases have been analysed as follows:

	2018				2017	2016
	Stage 1 Rs'000	**Stage 2 Rs'000**	**Stage 3 Rs'000**	**Total Rs'000**	Rs'000	Rs'000
Internal rating grade:						
Performing						
Neither past due nor impaired	**1,125,958**	**-**	**10,954**	**1,136,912**	731,059	867,472
Past due but not impaired	**146,071**	**47,190**	**13,268**	**206,529**	518,784	244,000
Non-performing						
Individually impaired	**-**	**-**	**48,964**	**48,964**	81,970	73,309
Gross	**1,272,029**	**47,190**	**73,186**	**1,392,405**	1,331,813	1,184,781
Less: provision for impairment	**(17,103)**	**(5,304)**	**(39,523)**	**(61,930)**	(45,033)	(34,732)
Net	**1,254,926**	**41,886**	**33,663**	**1,330,475**	1,286,780	1,150,049

The total impairment provision for lease exposures is **Rs 61,930,147** (2017 – Rs 45,033,499 and 2016 - Rs 34,732,773) of which **Rs 39,522,720** (2017 Rs. 32,126,300 and 2016- Rs 23,618,054) relates to the individually impaired leases and the remaining amount of **Rs 22,407,427** (2017 – Rs. 12,907,198 and 2016 - Rs 11,114,719) represents the portfolio provision.

3.1.6 Finance leases neither past due nor impaired

	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Finance leases to customers:			
- Individuals	**499,269**	378,198	306,887
- Corporates	**637,643**	352,861	560,585
Total	**1,136,912**	731,059	867,472

The company does have a recurrent credit rating system but all leases are credit rated at their inception based on the credit worthiness of the lease applicants.

3.1.7 Finance leases past due but not impaired

	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Finance leases to customers:			
- Individuals			
- Past due up to 30 days	**79,824**	106,000	62,406
- Past due 30-60 days	**19,504**	31,615	29,523
- Past due 60-90 days	**12,933**	-	-
	112,261	137,615	91,929
- Corporates			
- Past due up to 30 days	**67,183**	323,397	97,503
- Past due 30-60 days	**15,216**	57,772	54,568
- Past due 60-90 days	**11,869**	-	-
	94,268	381,169	152,071
Total finance leases past due not impaired	**206,529**	518,784	244,000

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.1 Credit risk (Continued)

3.1.8 Finance leases individually impaired

	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Finance leases to customers:			
- Individuals			
- Gross amount	**12,805**	23,579	21,168
- Specific provision (Stage 3)	**4,176**	4,894	2,099
- Corporates			
- Gross amount	**60,381**	58,391	52,141
- Specific provision (Stage 3)	**35,347**	27,232	21,519
- Total			
- Gross amount	**73,186**	81,970	73,309
- Specific provision (Stage 3)	**39,523**	32,126	23,618

3.1.9 Finance leases renegotiated

	2018	2017	2016
Finance leases to customers:	**Rs'000**	Rs'000	Rs'000
- Individuals	**7,668**	-	2,942
- Corporates			
- Not impaired after restructuring would otherwise have been impaired	**-**	-	26,719
Total	**7,668**	-	29,661

3.1.10 Finance leases repossessed collateral

Collaterals on finance leases repossessed during the year as follows:-

	2018	2017	2016
	Rs'000	Rs'000	Rs'000
Vehicles	**892**	5,247	6,578
Equipment	**1,578**	6,469	-
	2,470	11,716	6,578

These repossessed collaterals are sold to third parties to recover the investment on leases**.** At year end, four repossessed assets remained unsold and were reclassified as 'Held for Sale' in line with IFRS 5. Losses amounting to Rs. 913,571 were recognised in the statement of comprehensive income.

For the financial year ended 31 December 2018, total vehicles and equipment repossessed amounted to **Rs 2,470,142** (2017: Rs. 11,716,100; 2016: Rs 6,577,884)

3.2 Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises the following types of risk: Other price risk, currency risk and interest rate risk.

3.2.1 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is not exposed to other price risk, as it does not hold any financial assets or financial liabilities carried at fair value.

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.2 Market risk (Continued)

3.2.2 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to foreign currency risk as it does hold financial assets or financial liabilities that are denominated in foreign currency.

Concentrations of financial assets and financial liabilities:

At 31 December 2018

		Denominated in			
		EURO	**USD**	**MUR**	**Total**
Assets	**Rs**	**15,770,905**	**8,520,891**	**1,541,464,668**	**1,565,756,464**
Liabilities	**Rs**	**4,184,015**	**422,277**	**1,515,116,835**	**1,519,723,127**
Net position	**Rs**	**11,586,890**	**8,098,614**	**26,347,833**	**46,033,337**

At 31 December 2017

		Denominated in			
		EURO	**USD**	**MUR**	**Total**
Assets	**Rs**	23,992,062	13,186,318	1,549,215,049	1,586,393,429
Liabilities	**Rs**	8,583,646	1,479,308	1,465,114,711	1,475,177,665
Net position	**Rs**	15,408,416	11,707,010	84,100,338	111,215,764

At 31 December 2016

		Denominated in			
		EURO	**USD**	**MUR**	**Total**
Assets	**Rs**	31,400,542	17,727,234	1,415,211,432	1,464,339,208
Liabilities	**Rs**	12,136,322	2,852,169	1,292,845,433	1,307,833,924
Net position	**Rs**	19,264,220	14,875,065	122,365,999	156,505,284

The Company is exposed to foreign exchange risk arising from cash and cash equivalents and financial assets and liabilities held in foreign currency. As at 31 December 2018, if the Mauritian Rupee had weakened/strengthened by 8.50% against the EURO and USD, the Company's profit before tax would have been **Rs 984,886** (2017: Rs. 1,309,715 ; 2016: Rs 1,637,459) lower/higher and **Rs 688,382** (2017: Rs. 995,095 ; 2016: Rs 1,264,381) lower/higher respectively.

3.2.3 Interest rate risk

Interest rate risk is the risk that a movement in interest rates will have a significant adverse effect on the financial condition of the Company. This is controlled by ensuring that there are no mismatches or gaps in amounts of financial assets and financial liabilities.

The Company takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise.

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The principal source of funding of the Company is from fixed deposits, whereby the majority of same bears fixed interest rate. On the other hand, the majority of leases granted by the Company are also at fixed rate hence ensuring a constant differential. Very few contracts are on variable terms. Therefore the Company is not significantly exposed to interest rate risk. Moreover, any adverse fluctuation in the market interest rate will have an impact on the interest rate on future fixed deposits and leases.

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.2 Market risk (Continued)

3.2.3 Interest rate risk (Continued)

The table below summarises the effective interest rate for monetary financial instruments:

	2018 % Min	**2018 % Max**	2017 % Min	2017 % Max	2016 % Min	2016 % Max
Assets						
Cash and cash equivalents	**0.50**	**1.75**	0.75	2.45	0.75	2.45
Other Financial Assets	**3.18**	**7.85**	2.45	8.75	2.45	8.75
Leases	**2.75**	**13.00**	2.75	11.50	2.75	11.50
Liabilities						
Bank and SIC Loans	**0.75**	**5.00**	0.75	5.00	0.75	5.10
Deposits	**4.40**	**6.50**	1.35	8.50	1.35	8.50

The company is exposed to interest rate risk arising from financial assets and financial liabilities. As at 31 December 2018, if the interest rate had increased/decreased by 0.50%, the Company's profit before tax would have been **Rs 674,424** (2017: Rs 1,019,134 and 2016: Rs 953,198) lower/higher.

3.3 Liquidity risk

Liquidity risk is the risk that the Company is unable to meet its payment obligations when they fall due or to replace funds when they are withdrawn.

The Company has several core liquidity management strategies. The first is to project future cash flows and make plans to address normal operating requirements, as well as variable scenarios and contingencies. The second is to manage day to day funding, by controlling intraday liquidity in real time and by forecasting future cash flows to ensure that requirements can be met. Finally, excess funds are maintained in highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flows.

The Company’s funding base comprises a mixture of different funding sources, including retail and corporate customer deposits. In order to avoid reliance on a particular group of customers or market sectors, the distribution of sources and the maturity profile of deposits are actively managed.

Important factors in assuring liquidity are competitive rates and the maintenance of depositors’ confidence.

Such confidence is based on a number of factors including the Company’s reputation, the strength of earnings and the Company’s financial position.

3.3.1 Liquidity risk management

The monitoring and reporting of liquidity risk involves the measurement of cash flows and projections for the next day, week and month. Additionally, in evaluating the Company’s liquidity position, management takes account of undrawn lending commitments and the usage of overdraft facilities.

Sources of liquidity are regularly reviewed to maintain a wide diversification by provider and term.

To avoid reliance on a particular group of customers or market sectors, the distribution of sources and the maturity profile of deposits are also carefully managed.

3.3.2 Contractual maturity of financial assets and liabilities

The table below presents the cash flows payable by the Company under financial liabilities by remaining contractual maturities at the end of the reporting period.

The objective of liquidity management is to ensure that funds are available or there is assurance of the availability of funds, to honour the Company's cash flow commitments as they fall due, including off-balance sheet outflow commitments in a timely and cost effective manner.

Liquid assets equivalent to not less than 10 per cent of deposit liabilities are maintained at all times. This is monitored continually and a weekly return of liquid assets and deposits is submitted to the Bank of Mauritius. The Company has complied with this requirement at 31 December 2018.

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.4 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for the shareholder and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust capital structure, the Company may adjust the amount of dividends paid to the shareholder, return capital to the shareholder, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the statement of financial position plus net debt.

The gearing ratio at 31 December 2018, 2017 and 2016 were as follows:

	2018	2017	2016
	Rs	Rs	Rs
Total deposits and borrowed funds	**1,438,346,474**	1,379,692,796	1,258,344,591
Less: cash and cash equivalents	**(93,041,991)**	(236,605,758)	(270,406,419)
Net debt	**1,345,304,483**	1,143,087,038	987,938,172
Total equity	**237,561,855**	247,082,451	238,357,276
Total capital	**1,582,866,337**	1,390,169,489	1,226,295,448
Gearing ratio	**85%**	82%	81%

3.5 Fair values of financial assets and liabilities

The following table summarises the carrying amount and fair values of those financial assets and financial liabilities not presented in the statement of financial position at fair values:

	2018 Carrying value	**2018 Fair value**	2017 Carrying value	2017 Fair value	2016 Carrying value	2016 Fair value
	Rs'000	**Rs'000**	Rs'000	Rs'000	Rs'000	Rs'000
Financial assets						
Cash and cash equivalents	**93,042**	**93,042**	236,606	236,606	270,406	270,406
Other financial assets	**140,582**	**152,352**	60,134	61,472	28,529	33,936
Other assets	**1,545**	**1,545**	2,874	2,874	15,355	15,355
Financial liabilities						
Deposits from customers	**1,406,568**	**1,423,975**	1,336,701	1,373,712	1,192,711	1,381,858
Other borrowed funds	**31,778**	**32,168**	42,992	43,065	65,634	67,007
Other liabilities	**81,264**	**81,264**	95,485	95,485	49,489	49,489

(i) Cash and cash equivalents (excluding bank overdraft)
Cash and cash equivalents comprise of balances with and placements in Mauritius.

(ii) Deposits from customers and other borrowed funds
The estimated fair value of fixed interest bearing deposits not quoted in an active market is based on discounted cash flows using interest rates for new debts with similar remaining maturity. As a result, deposits from customers and other borrowed funds fall under level 2 of the Fair Value Hierarchy.

(iii) Other financial assets and financial liabilities
Other assets and other liabilities are repayable on demand. Their fair values are therefore considered as being equal to their carrying value. Fair values are therefore considered as being equal to their carrying value as a result of their short term nature.

3. FINANCIAL RISK MANAGEMENTS (CONTINUED)

3.5 Fair values of financial assets and liabilities (Continued)

The below table sets out the comparison, by class, of the carrying value and fair value of the Company's financial instruments that are not carried at fair value in the financial statements. The table does not include the fair values of non-financial assets and non-financial liabilities.

LA PRUDENCE LEASING FINANCE CO. LTD.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018

4 FINANCE LEASES TO CUSTOMERS (CONTINUED)

For all finance leases, the Company retains ownership of the leased assets. Assets (vehicles and equipment) are leased to customers for periods ranging from 12 to 84 months. The average lease term is 60 months and the majority of these leases are at fixed interest rates.

During the year, the Company has repossessed three vehicles which remain unsold at year end with a carrying amount of Rs 2,078,016. This has been transferred to held for sale (Note 25).

		2018	2017	2016
		Rs	Rs	Rs
vi) Transactions with key management personnel				
Acquisition of non-current assets		**2,150,000**	-	-
Total	**Rs**	**2,150,000**	-	-

The Company acquired the motor vehicle of the Managing Director on 28 February 2018 as an alternative to providing a new company car.

Related parties, whether body corporates or natural persons, fall into two main groups:

a) those that are related because of ownership interest; and
b) those that are related otherwise, such as directors and senior officers.

Internal limits for granting credit to related parties are in line with the BOM guidelines whereby aggregate of credit exposures to related parties should not exceed 60% of our Tier 1 capital. A preferential rate of 8.5% is awarded to related parties for leasing facilities while deposits placed at our institution are remunerated at the current market rate. Approval of leasing facilities goes through the same process as other clients and mandate the authorisation of the Credit Committee. There has been no impairment on those leases and amount receivable from related parties.

22 COMMITMENTS

Finance leases

The Company had commitments in respect of lease contracts which had been signed at 31 December 2018 of **Rs 44,146,708** (2017- Rs. 64,353,060 and 2016 – Rs 7,065,285) but for which no monies had been disbursed.

Operating leases

At 31 December 2018, the Company had operating lease commitments in respect of office space rental amounting to **Rs 1,675,334** (2017 – Rs. 1,467,670 and 2016 – Rs 1,234,663).

The future minimum lease payments payable under operating leases are as follows:

	2018	2017	2016
	Rs	Rs	Rs
Not later than 1 year	**1,675,334**	,467,670	1,234,663
Later than 1 year and not later than 5 years	**-**	-	-
Rs	**1,675,334**	1,467,670	1,234,663

23 OPERATING LEASE RECEIVABLES

Operating leases where the Company is the lessor

The future minimum lease payments receivable under non-cancellable operating leases are as follows:

	2018	2017	2016
	Rs	Rs	Rs
Within 1 year	**40,893,671**	27,692,161	21,130,202
Over 1 year up to 7 years	**130,629,319**	88,910,389	60,032,302
	171,522,990	116,602,550	81,162,504

There were no amounts in arrears and no impairment were made in respect of assets leased under operating leases.

Rents recognised on operating leases in the income statement are Rs. 34,672,584 (2017- Rs. 19,145,884 and 2016-Rs. 15,500,131).

The Company leases vehicles under various agreements which terminate between 2019 and 2025. The agreements do not include an extension option. The leases are at an interest rate of 6.50% - 10.25%.

25 ASSETS HELD FOR SALE

Repossessed Assets under finance and operating leases where the Company is the lessor

The carrying amount of assets classified as held for sale are as follows:

	2018	2017	2016
	Rs	Rs	Rs
Opening balance	**-**	-	-
Transfer from Property, plant and equipment	**171,302**	-	-
Transfer from finance lease	**2,078,016**		
Loss recognised in Profit & Loss	**(913,571)**	-	-
Closing Balance	**1,335,747**	-	-

As management had the intention of disposing of all the unsold repossessed assets at 31 December 2018 within the next twelve months, the assets were classified as held-for-sale. Management considered the seized assets to meet the criteria to be classified as held for sale as at the reporting date for the following reasons:

- The seized assets are available for immediate sale and can be sold to the buyer in its current condition
- The action to complete the sale was initiated and expected to be completed within one year from the date of initial classification
- Potential bidders have been identified and negotiations are in progress as at the reporting date

26 IMMEDIATE AND ULTIMATE PARENT

Prudence Holding Limited, a company incorporated in Mauritius under the Mauritian Companies Act 2001 as a public company, holds 100% shareholding of La Prudence Leasing Finance Co. Ltd. and the directors consider Prudence Holding Limited as the Company's immediate ultimate holding company.

27 EVENTS AFTER THE REPORTING PERIOD

There are no events after the end of the reporting period which the directors consider may materially affect the financial statements for the year ended 31 December 2018.

28 RETIREMENT BENEFITS OBLIGATION

The Company has an employee scheme which is an unfunded retirement gratuity and which has been provided for the employees not covered by the Company's defined contribution under requirement of the Employment Rights Act 2018. All employees who have completed a one-year service with the Company fall under this scheme as at 31 December 2018. The Company has 12 members and 13 non-members.

(a) The amounts recognised in the Statement of Financial Position are as follows:

	31 Dec 18
Statement of Financial Position	**Rs**
Present value of obligations	**613,227**
	613,227

(b) Movement in the liability recognised in the Statement of Financial Position:

	31 Dec 18
	Rs
Initial recognition	
Net expense recognised in Profit or Loss	**711,496**
Net actuarial (gains)/losses recognised in OCI	**(98,269)**
	613,227

28 RETIREMENT BENEFITS OBLIGATION (CONTINUED)

	31 Dec 18
(c) The amounts recognised in Profit or Loss are as follows:	Rs
Initial recognition	**595,426**
Interest cost	**32,761**
Current service cost	**183,592**
Curtailment/ settlement (gain)/loss on obligation	**(100,283)**
Net expense recognised in Profit or Loss	**711,496**

(d) The amounts recognised in Other Comprehensive Income are as follows:

Actuarial gains/(losses) recognised in OCI	**98,269**
	98,269

(e) Changes in the present value of the obligation:

Present value of obligation at start	-
Initial recognition	**595,426**
Interest cost	**32,761**
Current service cost	**183,592**
Curtailment/ settlement (gain)/loss on obligation	**(100,283)**
Expected obligation at end of period	**711,496**
Present value of obligation at end of period	**613,227**
Re-measurement recognised in OCI at end of period – Gain/(Losses)	**98,269**

(f) The principal actuarial assumptions used for accounting purposes were:

Normal Retirement Age	65
Discount rate	Mid rates of the Mauritian govt bond market
Weighted average discount rate	5.41%
Future salary increases	5.00%
Annual proportion of employees leaving service	5% up to age 40, decreasing to 0% at 45 and Nil thereafter.
Actual table for employee morality	PMA92_PFA92

(g) A quantitative sensitivity analysis for significant assumptions is shown below:

Effect on present value of obligations	**31 Dec 18**
	Rs
1% Increase in discount rate	**497,245**
1% Decrease in discount rate	**1,014,741**
1% Increase in salary increase assumption	**847,168**
1% Decrease in salary increase assumption	**545,281**
Effect of changing longevity – rate up	**583,305**
Effect of changing longevity – rate down	**657,249**
